- Databases:** MongoDB, PostgreSQL
- Testing:** Jest, React Testing Library
- Tools:** Git, GitHub, Vite, Postman, Figma
- Concepts:** REST API, Responsive Design

LANGUAGES

- English — Intermediate (B1)
- Ukrainian — Fluent (C1)
- Russian — Native (C2)

SUMMARY

Frontend Developer specializing in **React** and **Next.js** applications. Built multiple full-stack projects with complex features including authentication, database integration, and real-time data visualization. Strong problem-solving skills and passion for creating intuitive user experiences.

PROJECTS

- Noire — E-commerce** [GitHub](#) [Live](#)
A modern online clothing store with a dynamic product catalog.
Stack: Next.js, TypeScript, Prisma, PostgreSQL, Zustand, Shadcn/UI
 - Built full-featured e-commerce platform with authentication, product catalog of **50+ items**.
 - Synchronized cart state between localStorage and **PostgreSQL** database for seamless guest-to-user conversion.
 - Increased performance by optimizing **SSR/SSG** and lazy-loading images.
 - Achieved **95+** Lighthouse performance score.
- FinTracker — Dashboard** [GitHub](#) [Live](#)
A web app for managing personal finances with interactive charts.
Stack: Next.js, TypeScript, Prisma, PostgreSQL, Auth.js, Recharts, Tailwind
 - Built finance management dashboard with secure **Auth.js** authentication and user data protection.
 - Developed income/expense tracking with **8+** interactive **Recharts** visualizations and real-time updates.
 - Handles **400+** transactions with real-time chart updates.
 - Integrated **React Hook Form** + **Zod** validation ensuring 100% data accuracy and preventing invalid entries.
- Portfolio Website** [GitHub](#) [Live](#)
Stack: React, TypeScript, React Router Vite, Tailwind CSS, Framer Motion
 - Created a personal portfolio website showcasing projects, skills, and contact information.
 - Enhanced UX with **15+ Framer Motion** animations including page transitions, scroll effects, and interactive elements
 - Implemented a fully responsive layout (320px–2K) using a mobile-first approach.

EDUCATION

- Frontend Development — Self-taught** 2023 - Present
Completed Udemey Courses:
[Next Js](#) [JavaScript & React](#) [TypeScript](#) [MongoDB](#)
- Bachelor's Degree in Metallurgical Engineering** 2021
National Metallurgical Academy of Ukraine
