PROJECTS

Noire — E-commerce Clothing Store [GitHub](#) [Live](#)

Next.js, TypeScript, Prisma, PostgreSQL, Zustand, Shadcn/UI, Tailwind

- Developed a fully functional online clothing store with authentication, product catalog, cart, and wishlist features.
- Implemented persistent cart logic for both authenticated users (database) and guests (localStorage), with automatic data migration upon login.
- Integrated Prisma ORM with PostgreSQL for database operations and server-side rendering (SSR/SSG) for optimal performance.
- Built a modular state management system using Zustand and Shadcn/UI components for consistent and scalable UI.

FinTracker — Personal Finance Dashboard [GitHub](#) [Live](#)

Next.js, TypeScript, Prisma, PostgreSQL, Auth.js, Recharts, Tailwind

- Designed and developed a finance management dashboard with secure user authentication via Auth.js.
- Implemented income and expense tracking with interactive charts and real-time data visualization using Recharts.
- Built dynamic forms with validation using React Hook Form and Zod to ensure data accuracy.

Portfolio Website [GitHub](#) [Live](#)

React, TypeScript, React Router Vite, Tailwind CSS, Framer Motion

- Created a personal portfolio website showcasing projects, skills, and contact information.
- Implemented smooth animations and transitions with Framer Motion for an engaging user experience.
